

There are several water sites in the world where many health miracles have been reported, namely the ones in;

*Nordenau in Germany, Lourdes in France, Tlacote in Mexico and Nadana in India.*

Thousands of people have visited these sites because of the healing properties found in the water, which has also been said to contain Dissolved Hydrogen & minerals.

Now, you don't have to travel to these miracle sites to obtain the benefit, as at Prife International we bring to you, our Natural Mineral based water product called,

**7WONDERS  
WATER**

**7WONDERS**

**is Easy to Use and  
Inexpensive to Maintain!**

Simply pour purified water into the bottle for **3 minutes** and it is ready for consumption.

The CoreMinerals usually last for 3 months.

**7WONDERS**

✓ Increases Dissolved Hydrogen in Water

✓ Negative Oxidation Reduction Potential (ORP) Reading

✓ Alkaline

✓ Reduction in Molecular Size of Water

✓ Antioxidant

✓ Mineral Water

✓ Anti-bacteria

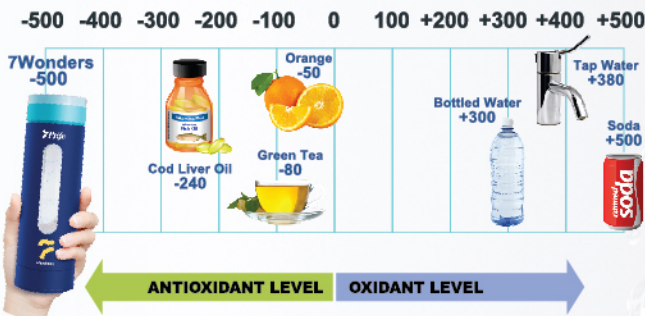

# 1 Increases Dissolved Hydrogen in Water

Parts per billion (PPB) is the unit for measurement of Dissolved Hydrogen in water. The water in 7Wonders has a measurement of **between 800PPB to 1,500PPB** after **5 minutes**. Dissolved Hydrogen water increases its anti-inflammatory and antioxidant properties.

## Oxidation Reduction Potential (ORP)

# 2 Oxidation Reduction Potential (ORP)

Positive ORP readings indicate that your drinking water is more contaminated. Negative ORP readings on the other hand indicate that it is less contaminated. **The more negative the ORP, the more anti-oxidizing is the water** and this leads to many benefits for you. The ORP reading of the water in 7Wonders is **between -300 to -700** based on the water temperature. This means the water in 7Wonders has powerful antioxidant property and hence its ability to neutralize the damaging oxidizing effects of free radicals.

## WONDERFUL FEATURES & BENEFITS

# 3 Alkaline

The water in 7Wonders is alkaline and can help in neutralizing the acidic food and drinks that we consume.

# 4 Reduction in Molecular Size of Water

With smaller molecular size in the water it helps in the delivery of nutrients to our cells, enhances the metabolism and micro circulation.

# 5 Antioxidant

Free radicals are atoms that contain an unpaired electron. They are highly unstable due to its lack of outer shell electrons and will search to bind with another atom or molecule to stabilize themselves. This process can cause damage to human cells. **Antioxidant can prevent or slow damage to cells caused by free radicals.**

# 6 Mineral Water

The CoreMinerals in 7Wonders contain essential minerals like **Potassium, Sodium, Calcium, Magnesium, Zinc, Metasilicic acid** and other trace minerals.

# 7 Anti-bacteria

Lab tested result shows its anti-bacterial quality.
